Professional Summary

Aspiring Software Developer with proven ability to collaborate with cross-functional teams and senior stakeholders on strategic initiatives. Strong foundation in identifying business requirements, translating them into actionable technical solutions, and delivering quality results. Experienced in Agile methodologies, working with global teams, and demonstrating leadership in collaborative environments. Proficient in multiple programming paradigms with hands-on experience in production applications, microservices, and emerging technologies. Quick learner passionate about exploring tech trends and solving real-world business challenges.

Education

Bachelor of Engineering in Electrical and Electronics Engineering, Sengunthar Engineering College, Namakkal, Tamil Nadu, June 2022 – May 2026.

CGPA: 8.5/10

Technical Skills

Languages: C++, JavaScript ES6+, Java, Python

Frameworks: React.js, Node.js, Bootstrap, Tailwind CSS

Databases: MongoDB, NoSQL, LocalStorage API

Web Technologies: HTML5, CSS3, RESTful APIs, Microservices Architecture

DevOps & Tools: Git, GitHub, Docker, Linux, CI/CD Pipelines

Core Competencies: Requirements Analysis, Stakeholder Management, Agile Development

Professional Experience

React Developer Intern, Zenvic Software Solutions Private Limited, India, July 2025 – August 2025.

- Collaborated with cross-functional teams and senior stakeholders across 2+ client projects, participating in strategic planning sessions and delivering production-ready solutions aligned to business objectives.
- Engaged in Agile sprints with global team members, actively participating in key meetings including daily stand-ups, sprint planning, retrospectives, and stakeholder presentations.
- Identified client business requirements through stakeholder consultation, translated them into actionable technical plans, and produced quality deliverables meeting performance and usability standards.
- Demonstrated leadership qualities by mentoring junior team members, facilitating code reviews, and driving adoption of best practices across the development team.
- Worked collaboratively in team environment to integrate RESTful APIs, develop reusable component libraries, and ensure code quality through peer reviews and adherence to organizational standards.

Technical Projects

AI-Powered Task Manager, GitHub Link.

- Led end-to-end development of full-stack task management platform, identifying user requirements and translating them into innovative AI-driven categorization features using custom algorithms.
- Designed scalable object-oriented architecture following industry best practices, demonstrating ability to craft solutions for real-world business challenges.
- Built real-time analytics engine processing task data with optimized algorithms, delivering actionable insights for productivity improvement.
- **Tech Stack:** JavaScript ES6+, HTML5, CSS3, OOP Design Patterns, Algorithm Optimization, LocalStorage API

QR Code Generator Platform, GitHub Link.

- Developed modular application supporting 6 content types with external API integration, demonstrating practical experience with third-party service collaboration.
- Translated business requirements into technical implementation achieving 95% mobile compatibility and responsive design standards.
- Applied problem-solving skills to implement error handling mechanisms and unit tests for robust user experience.
- **Tech Stack:** JavaScript, HTML5, CSS3, REST API Integration, Responsive Design

Certifications & Achievements

○ **React Development Certificate** - Zenvic Software Solutions (August 2025)

○ **Android Developer Virtual Internship** - Google for Developers & AICTE (January-March 2025)

Key Strengths

Strategic Thinking | Cross-functional Collaboration | Stakeholder Engagement | Business Requirements Analysis | Leadership & Mentorship | Tech Trend Exploration | Agile Methodologies | Continuous Learning | Professional Communication | Team Building.
